

## Automated Commercial Environment—Requirements Recommendation

<b>Date:</b>	July 09, 2001
<b>Number:</b>	MMM - 004
<b>Requestor:</b>	Multi-Modal Manifest Subcommittee
<b>Customs Co-Chair:</b>	John Considine
<b>Trade Co-Chair:</b>	Len Podgurny

### Requirement

If Customs finds that the equivalent of a trip # is a needed data element for other modes of transportation, it will need to accept the current AMS participants' method of identifying flight, voyage or train.

### Business Need

N/A

### Technical Need

Customs extracts needed information from current ACS data files.

### Benefits

No new programming needed to accommodate Air, Sea and Rail.

### Risks

None.
